## **DETAILED ACTION**

### ***Specification***

1. The abstract of the disclosure is objected to because of the use of the legalese phrase "comprises". Correction is required. See MPEP § 608.01(b).

The disclosure is objected to because of the following informalities: the status of the parent case should be updated.

Appropriate correction is required.

### ***Allowable Subject Matter***

2. Claims 1-7 are allowed.

The following is an examiner's statement of reasons for allowance: Regarding independent claim 1, the prior art of record neither shows nor suggest a method of cleaning the neck on a funnel of a cathode-ray tube comprising: inserting a drain tube within said neck, the outer dimensions of said drain tube being less than the corresponding inner dimensions of said neck, wherein a gap exists between said drain tube and said neck; directing a fluid through said gap; and draining said fluid, that was directed through said gap, through said drain tube, whereby said fluid cleans said neck.

Due to their dependency, claims 2-7 are necessarily allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

3. This application is in condition for allowance except for the following formal matters:

Please refer to the above Action.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
